
Hello All

Posted by Timi - 2008/04/15 07:25

Long time lurker, new time poster. Just thought I would share with anyone interested that I've put together a Team Fortress 2 server for anyone that plays.

216.6.235.173

Admittedly, it's far from populated, but just trying to get the word out. Right now the map rotation is for control points.

cp_dustbowl
cp_well
cp_granary
cp_gravelpit
tc_hydro
cp_badlands

There is map voting, so players aren't stuck in the same rotation. I do have custom maps such as cp_aqua, cp_lazytown, cp_warpath, etc., but unless there is demand for them I won't implement them.

Take care!
